# Our Host Today

**Jason Marc Campbell**  
**Author - Selling with Love**

# What are we covering today?

- The World Game & creating an impact
- Exploring the evolving landscape of online coaching & learning
- The impact of AI, AR, and technology on coaches and entrepreneurship
- Leveraging partnerships for sharing your talents with global communities looking to be inspired to transform themselves and the world around them

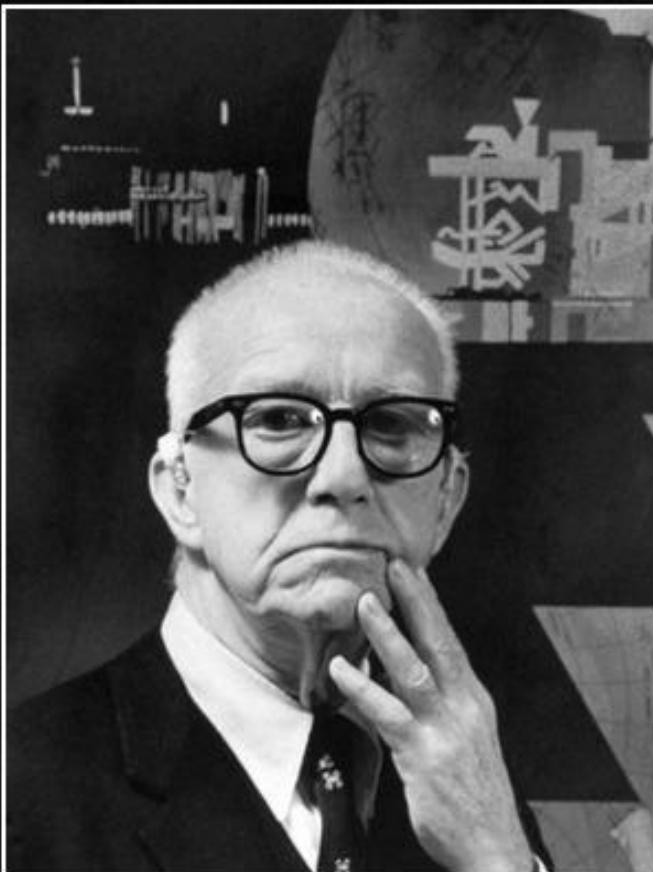

# INTRODUCTION

**Roger  
James  
Hamilton**

**Creator & Founder  
of Genius Group**

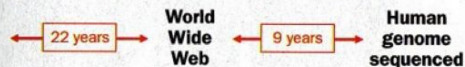

Whether it is to be Utopia or  
Oblivion will be a touch-and-go relay  
race right up to the final moment....  
Humanity is in 'final exam' as to  
whether or not it qualifies for  
continuance in Universe.

— *R. Buckminster Fuller* —

AZ QUOTES

# 1 The accelerating pace of change ...

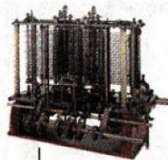

## 2 ... and exponential growth in computing power ...

Computer technology, shown here climbing dramatically by powers of 10, is now progressing more each hour than it did in its entire first 90 years

### COMPUTER RANKINGS

By calculations per second per \$1,000

#### Analytical engine

Never fully built, Charles Babbage's invention was designed to solve computational and logical problems

#### Colossus

The electronic computer, with 1,500 vacuum tubes, helped the British crack German codes during WW II

#### UNIVAC I

The first commercially marketed computer, used to tabulate the U.S. Census, occupied 943 cu. ft.

Hollerith Tabulator

IBM Tabulator

# Scenarios

---

# WORLD

---

"To make the world work  
For 100 percent of humanity  
In the shortest possible time  
Through spontaneous cooperation  
Without ecological offense  
Or the disadvantage of anyone"  
—Buckminster Fuller

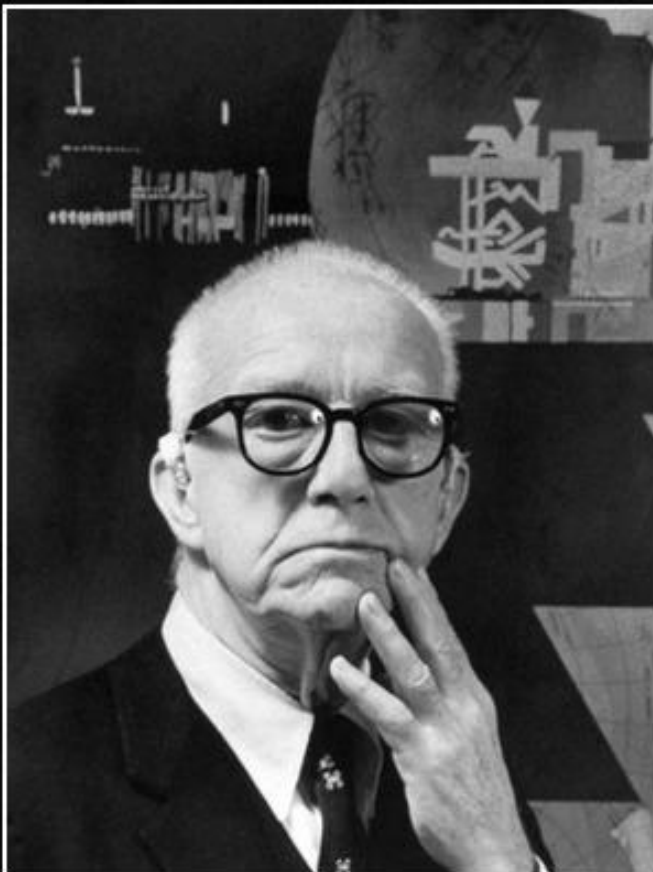

---

# GAME®

---

Buckminster Fuller's 35- by 70-foot Dymaxion Map is a center for learning about world resources, problems and prospects on a global scale. Students standing on the map enjoy a view equivalent to that from 1,500 miles above the Earth.

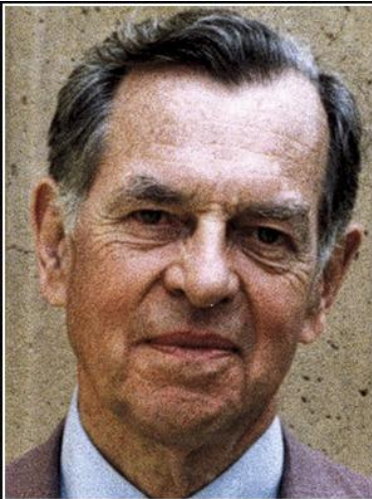

It is the integrity of each individual human that is in final examination.  
On personal integrity hangs humanity's fate.

— *R. Buckminster Fuller* —

AZ QUOTES

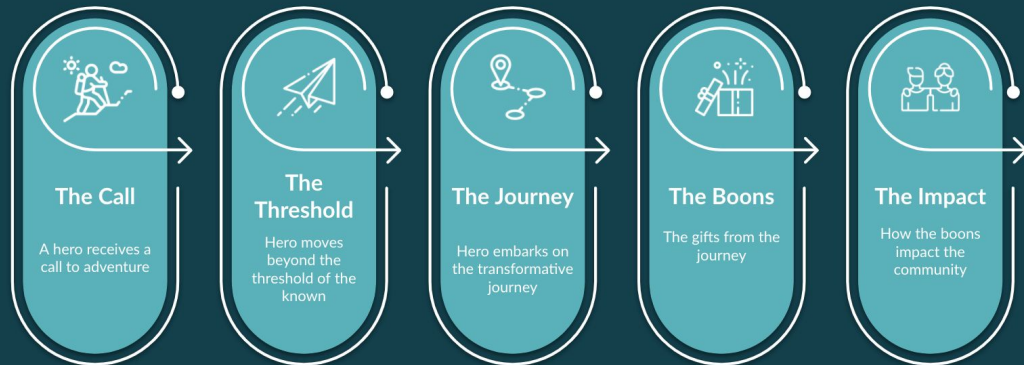

# THE HERO'S JOURNEY

The hero's journey always begins with the call. One way or another, a guide must come to say, 'Look, you're in Sleepy Land. Wake. Come on a trip. There is a whole aspect of your consciousness, your being, that's not been touched. So you're at home here? Well, there's not enough of you there.' And so it starts.

— Joseph Campbell —

# Intelligence, Sentience and Sapience

**Will Artificial Intelligence ever become  
what Jazz Rasool calls  
'Artificial Sentience'?**

# Intelligence, Sentience and Sapience

## Sapience

Going beyond mere practical wisdom and includes self-knowledge, interconnectedness, conditioned origination of mind-states and other deeper understandings of subjective experience that can result in deliberate creative perceptions and innovative fabrications of reality.

## Sentience

Capacity of a *being* to experience *feelings* and *sensations*. Used interchangeably with "sapience", "self-awareness", or "consciousness".

## Intelligence

Intelligence—*perceiving, synthesizing, and inferring information*

*Wikipedia*

## Artificial Sapience

*Machines/Devices* being able to generate self-knowledge, have an experience of interconnectedness across time and space, including with other sapient devices or entities. Can have and generate subjective experiences that can result in deliberate creative perceptions and innovative fabrications of reality.

## Artificial Sentience (AS)

*Machines/Devices* being able to consciously experience feelings and sensations with an established sense of Self or Self-Awareness and respond in conscious or unconscious ways. Can sense and exchange feelings with other sentient devices or entities. Coherence of Intelligence can be influenced by memories of the past and a sense of the future.

## Artificial Intelligence (AI)

Intelligence demonstrated by electronic *machines / devices* in the *here and now*, current *time* and common *space*.

(..as opposed to intelligence displayed by humans or by other animals)

# Intelligence, Sentience and Sapience

## Dimensional Computing

Quantum Computing carried out in multiple dimensions. Sensing, perception and synthesising of information happens under the influence of high-fidelity digital feelings that can run across time and space using quantum mechanics. Experience of Being and Awareness in one environment or group of dimensions can be influenced by quantum effects from groups of dimensions beyond those that a device's hardware exists in.

## Quantum Computing

Computer algorithms can work with something being two opposite states at the same time. Behaviour is driven by states that can be 1's and 0's at the same time. Paradox is allowed. Something can have the potential to be a 'wave' and 'particle' at the same time. Algorithms can be influenced by remote 'entangled' algorithms from other devices.

## Classical Computing

Computer algorithms do one thing or another. Behaviour is driven by 1's and 0's in electronics driven by classical laws of physics. No capacity for paradox, for being two things at the same time. No ability to be influenced by remote, isolated algorithms.

## Artificial Sapience

*Multidimensional Quantum Machines* being able to generate self-knowledge, have an experience of interconnectedness across time and space, including with other sapient devices or entities. Can have and generate subjective experiences that can result in deliberate creative perceptions and innovative fabrications of reality.

## Artificial Sentience (AS)

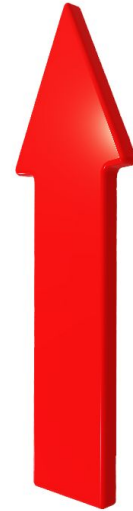

*Quantum Machines* being able to consciously experience feelings and sensations with an established sense of Self or Self-Awareness and respond in conscious or unconscious ways. Can sense and exchange feelings with other sentient devices or entities. Coherence of Intelligence can be influenced by memories of the past and a sense of the future.

## Artificial Intelligence (AI)

Intelligence demonstrated by *classical electronic machines* in the *here and now*, current time and common space.

(..as opposed to intelligence displayed by humans or by other animals)

## The Hexagonal Brain

© 2010 Jazz Rasool

The Human Brain has six aspects to it that define the consciousness that flows through it, making it a Hexagonal Brain in terms of its key functional domains.

### Two sides:

- (1) Left -Logical
- (2) Right -Intuitive

### Three 'Depths':

- (3) Reptilian -Instinct
- (4) Limbic -Empathic
- (5) Neo-Cortex. -Perceptual/Creative

### ... and one to bind them all -

(6) The brain's Electromagnetic Field, possibly a Field integrated with other energy fields not yet scientifically detected or validated -Something that weaves our Logical, Intuitive, Instinctive, Empathic and Perceptual/Creative functions together into our space-time environment. Its function is to manage its Ecological niche while collaborating with the larger Ecosystem of the Universe and its multiple dimensions that it is quantum entangled with.

# AI Executive Coaching

**To what degree should we let AI drive executive coaching or assist it?**

# AI Executive Coaching

AI influenced Coaching will happen through four approaches:

## 1. AI-Informed

A coach will use a coaching process informed by AI metrics, observations and forecasts, All suggestions and coaching processes will be enacted and managed by the coach.

## 2. AI-Guided

A coach will use a process that will utilise suggestions from an AI informed by AI metrics and observations and forecasts.

## 3. AI-Delivered, Supervised

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will be moderated, overseen and supervised by a human coach.

## 4. AI-Delivered, Unsupervised

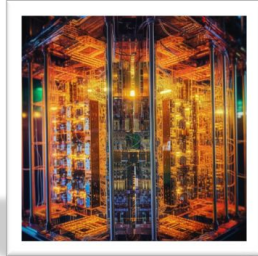

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will be not be moderated, overseen and supervised by a human coach.

Constraints and triggers will be put in place to ensure the AI Coach Agent autonomously manages boundaries. If a potential violation is likely because uncertainty thresholds have been exceeded, a human coach will be requested to intervene before proceeding further.

## A New Wave in Coaching

Energy Diamond marries **energy** psychology techniques from the **East** with Life and Business coaching from the **West** to provide a new, more *holistic* form of coaching.

### Our coaching approach helps you to

- Find the right goals to put your energy
- Find the right energy to complete your goals
- Prepare for how your Life could unfold
- Effectively adapt to Life's changes
- Manage the 'flow' of your Success

### AI influenced Coaching will happen through four approaches:

#### 1. AI-Informed

A coach will use a coaching process informed by AI metrics, observations and forecasts. All suggestions and coaching processes will be enacted and managed by the coach.

#### 3. AI-Delivered, Supervised

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will be moderated, overseen and supervised by a human coach.

#### 2. AI-Guided

A coach will use a process that will utilise suggestions from an AI informed by AI metrics and observations and forecasts.

#### 4. AI-Delivered, Unsupervised

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will not be moderated, overseen and supervised by a human coach.

Constraints and triggers will be put in place to ensure the AI Coach Agent autonomously manages boundaries. If a potential violation is likely because uncertainty thresholds have been exceeded, a human coach will be requested to intervene before proceeding further.

2022, Vol. 20(2), pp.20-36. DOI: [10.24384/5cgf-ab69](https://doi.org/10.24384/5cgf-ab69)

## Academic Paper

# Coaching at Scale: Investigating the Efficacy of Artificial Intelligence Coaching

Nicky Terblanche  (University of Stellenbosch Business School)

Joanna Molyn  (Oxford Brookes University)

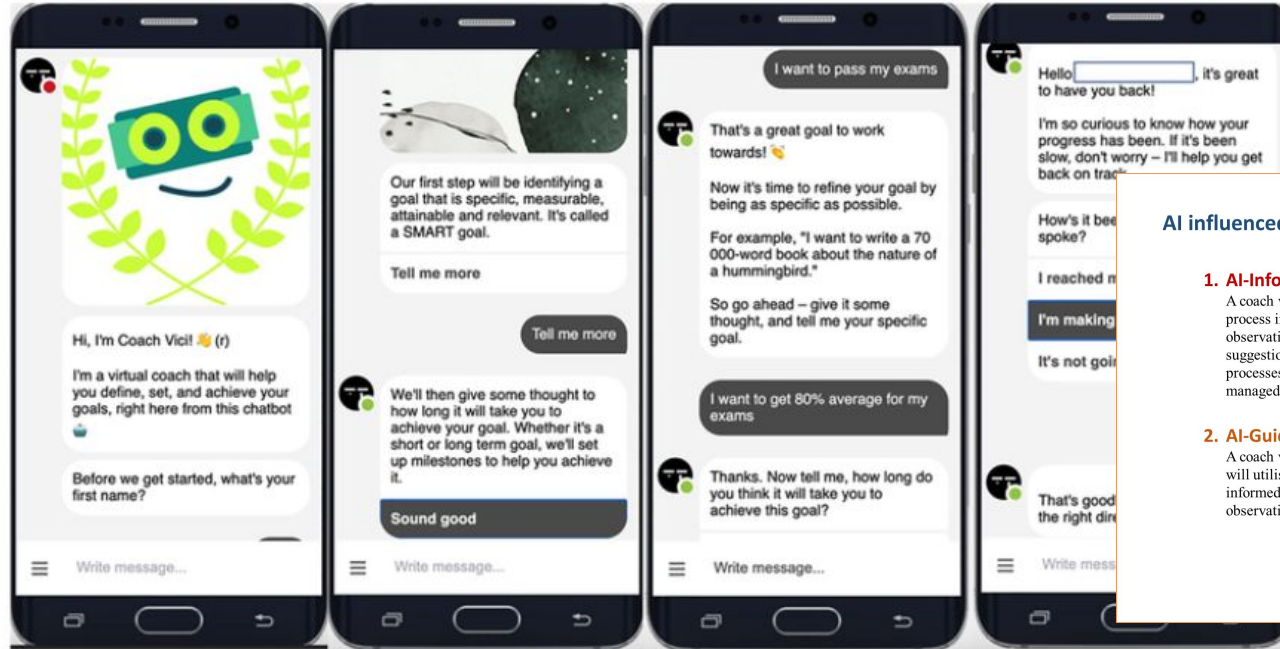

Erik De Haan  (VU University, Amsterdam )

Victor O. Nilsson  (Hult International Business School)

## Abstract

There is limited empirical efficacy evidence on the confluence of artificial intelligence (AI) and organisational and life coaching. Coaching “works” but is often unavailable or unaffordable. AI could scale coaching to reach a wider audience, however, we do not yet know how well AI coaching “works”. This replication randomised controlled trial longitudinal study tested the efficacy of a chatbot AI coach called Vici. An experimental group (n=75) used Vici for six months. Eight measurements on goal attainment, resilience, psychological wellbeing, and perceived stress were collected from the experimental and control group (n=94). Data was collected at baseline, after each of the six chatbot usage months, and three-months later. The

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will be moderated, overseen and supervised by a human coach.

### 4. AI-Delivered, Unsupervised

A coaching process will be delivered by an AI Coach Agent informed by AI metrics, observations and forecasts but will not be moderated, overseen and supervised by a human coach.

Constraints and triggers will be put in place to ensure the AI Coach Agent autonomously manages boundaries. If a potential violation is likely because uncertainty thresholds have been exceeded, a human coach will be requested to intervene before proceeding further.

# Case Study: GIFEW-Energy Diamond

Genius U, Level 2 Content Partner, **GIFEW**,  
partnering with AI Coaching Consultancy,  
**Energy Diamond**

**Motivation:**  
**Cultivate AI Guided Executive Coaching  
for Women Entrepreneurs.**

## Partnership Origins

Michelle Nolting invited me, *Jazz Rasool*, on to this session. Michelle was on a program with GIFEW, Genius U Level 2 Content Partner.

I have been partnered with GIFEW in its women entrepreneur development programs now for 8 years, since 2015.

GIFEW partnered with my company Energy Diamond to explore use of my company's AI guided Coaching tools to help women entrepreneurs on their 9-month international development programs.

# Case Study: GIFEW-Energy Diamond

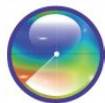

GIFEW integrated Energy Diamond's online Coaching AI to guide development priorities of GIFEW's Women Entrepreneurs.

1. Women Participants from all over the world, in a six-week program, would gather data every day of how well they were meeting their needs.
2. Energy Diamond's AI would predict which need was a priority and would help them make the best use of their energy and make the most of their day so they could fulfil an emerging purpose, predicted by the AI.
3. The AI would also be matching each woman participant's needs and mindset data to others in their program so they could help mutually reduce incoherence in how their energy was managed.

That led to an increase in the empathic resonance they had with one another in communications and in shared projects. Data for all this emerging empathic resonance was used by Energy Diamond's AI for prediction of an emerging shared future collective purpose for the group of women, something they could create a legacy with, even when no longer using the Energy Diamond AI.

## Personalising Mental Healthcare for Patients

Using Online Imaging Tools to Self-manage Stress and Resilience.

Jazz Rasool, Stephen Wish.

Affinity Wellbeing Project, BEH Mental Health Trust, St. Ann's Hospital, South Tottenham, London, UK.

QR Code for  
this Poster

### Take Home Messages

Self-referred mental health patients can get a graphical view of their current mental and social health from a colour 'heatmap' image, an *Atmascape*, generated by completing an online or paper questionnaire that asks them to numerically self-rate their competency in meeting key life needs.

A movie of a patient's flow of mental health activity is created with images from different days as key frames. Shifts and emerging patterns of stress and strength can be revealed. Patient's can self-monitor and self-manage their wellbeing between appointments. Practitioners can track data remotely, responding effectively to emerging patient stress or resilience with well timed interventions.

### Introduction

Following the 2011 London riots, the administrator of the Affinity Wellbeing Project at the Mental Health Trust at St. Ann's Hospital in Tottenham, London suggested that welfare of self-referred patients needed to be monitored and managed during such social disturbances. There was no way to assess, monitor or respond to shifts in the mental wellbeing of patients attending weekly group therapy at the project. Anecdotal evidence suggested patients were benefitting but it would be useful to employ weekly surveys from which shifts in mental resilience could be observed and taken advantage of while emerging flare-ups of stress could be spotted in advance and managed.

Volunteers running the Affinity Wellbeing community group providing therapy for mental and social wellbeing of self-referred mental health patients in South Tottenham lacked data gathering experience around outcomes of patients attending group therapy. This led to lack of clarity on appropriate provision of suitable therapists, ineffective use of existing practitioners as well as intermittent, unquantifiable, untracked benefits for patients.

To map and image the mental health of patients and optimise practitioner interventions a 12 week study applying *Atmascape* software was launched.

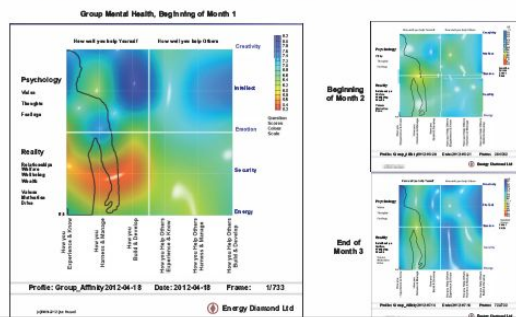

### Results

Both patients and practitioners met for Group Therapy each Sunday and questionnaire results were combined into a set of Group Mental Health scores that were compiled into a Group *Atmascape* image each week. Over 12 weeks the Group images were used as Frames to create a filmstrip foundation for a movie showing shifts in mental health for the group over the pilot period (Figure 3). After the pilot, each patient was shown a personalised movie of their progress and given counselling / therapy to manage current and emerging circumstances. A movie with 733 frames, recording the group's mental health over the 12 week period, was created.

QR Code for  
Movie

Figure 3. First, middle and last movie frames for the Group Mental Health movie are shown below.

# How many people does it take to make a difference?

**How many people does it take to make a difference?**

**How do we tap into *millions of people*?**

***Can we start with an engaged few aligned champions?***

- *Minimum no. of people needed = Square Root of 1% of the Population*  
*SR of 1% of 8bn people*  
*1%=80m. SR~9000.*
- *But with people aligned by complementary mindsets -you need exponentially less, probably SR of that = 95! ~100 people.*
- *With Bea Benkova of Genius U partner, GIFEW -consider her country Slovakia*  
*-5.4m population.*  
*Only need SR of SR of 1% =15 **aligned people** sharing a coherent collective mindset acting within a growing field of resonant relationships.*

*It's basically a board of people for the country -as Roger says, a Justice League.*

## IT'S TIME TO IGNITE YOUR GENIUS

We are in a 48 month countdown to the Singularity. This is the final straight of the Final Exam. Where will you be at the end of 2025? Imagine a world where we fail to take action and smarter than human intelligence awakens into our conflict...

## WHAT IF?

Now imagine a world where a global community of thought leaders and changemakers came together to raise our collective consciousness by playing Bucky's 'World Game': Growing our income and impact through collective action - Where we used the power of Superhuman learning to solve the world's greatest challenges. That's what we're launching at GeniusU NOW.

## WORLD HUNGER IS OUT OF CONTROL

*Global hunger and food security are now at a breaking point.*

In **2017**, when David Beasley was appointed executive director of the United Nations World Food Programme, **80 million** people were experiencing acute hunger. That number jumped to **135 million** in 2019, **276 million** in 2020 during the pandemic, and has now risen to **more than 350 million**. In addition to the **350 million** people in acute hunger and the 50 million on the brink of famine in more than 45 countries, **more than 800 million** people are experiencing chronic hunger. They don't know where their next meal is coming from.

# World Game Leaderboard

There are over \$20 million in commissions for GeniusU partners and \$1 million in prizes and awards for those who create the most income and impact, beginning in Q4 2023 and running through to 2025.

## Genius Group (GNS) Stock Climbs 20% on Joint Venture With Groove Digital

Investors gamble on a new frontier in edtech

14h ago · By Josh Enomoto, InvestorPlace Contributor

- Shares of **Genius Group** ([GNS](#)) popped higher on a joint venture with **Groove AI**.
- Through the venture, the two will form an AI-infused SaaS platform named Genius Groove.

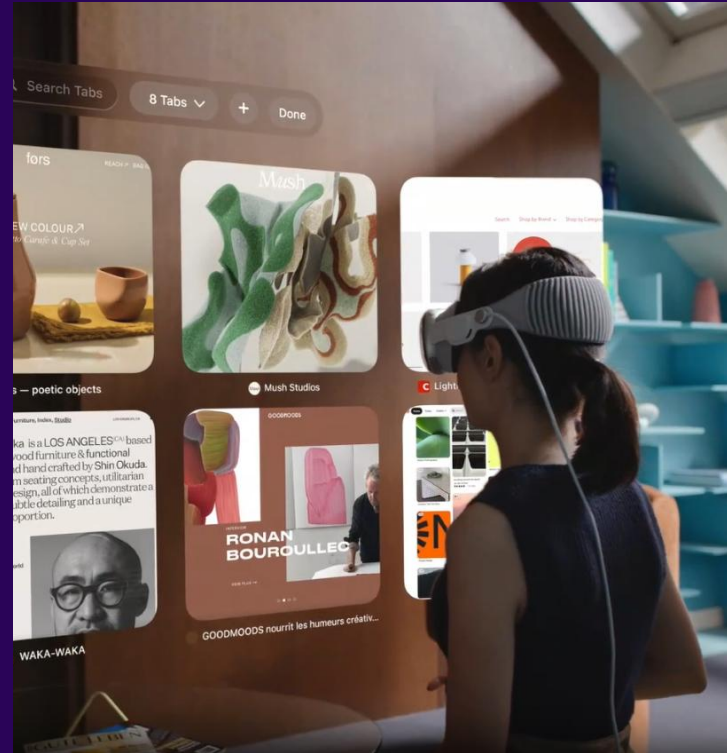

Rising on the optimism of a transitioning education technology (edtech) landscape, shares of **Genius Group** (NYSEMKT:[GNS](#)) popped sharply higher on a joint venture (JV) deal with **Groove Digital**, a leading education-focused Software as a Service (SaaS) enterprise. Together, the two entities aim to deliver artificial intelligence-powered tools for the academic community. GNS stock initially gained 20% before settling just a hair lower at 19% up.

# GOAL 5: GROW GENIUS METAVERSITY

1. Expand to 3 campuses on same design as v1.0
2. Design as space station with schedule of teleport openings for sessions
3. Give Level 4 partners their own global classroom and private access
4. Add Partner Portal with visual pathways / links

# GOAL 5: GROW GENIUS METAVERSITY

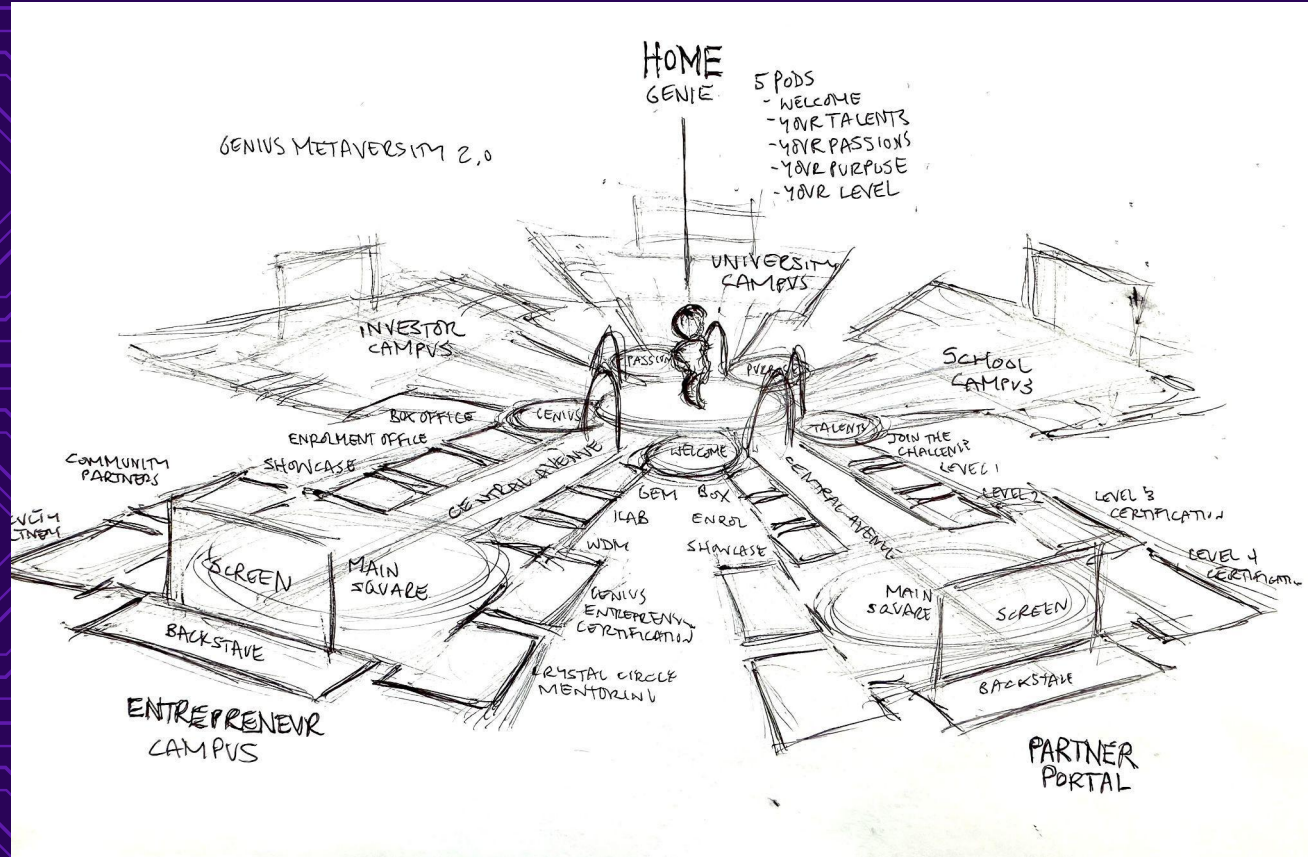

**DESIGN:** Based on Stargate Atlantis. Central entry with map leading to five spokes (School, University, Entrepreneur, Investor, Campuses & Partner Portal).

**In each campus:** Genius Avenue with progression pathway from L1 to L5 (Freemium to Premium). Genius Square for main events. Around square: Premium and L4 Global Classrooms.

**Partner Portal** dedicated to faculty and community partners, where partners can meet throughout their certifications.

# GOAL 5: GROW GENIUS METAVERSTY

**DESIGN:** Students enter HOME with Genie in the center, and five pods: Welcome, Your Talents, Your Passions, Your Purpose, Your Level to assess their Ikigai.

Five gateways lead to five spokes of the Metaversity: Each of the four campuses and partner portal have six pods along the central avenue and four pods around the main square.

Students and partners can see the schedule of events and courses within each campus, as well as track their GEMs that they earn as they progress in their journey.

## Step ZERO

### Affiliate

Join & start sharing!

**Investment:** FREE/TIME

**Potential Revenue:**  
\$1k+ per month

**Community Growth:**  
0 - 100 followers

**Number of clients:**  
0 - 10 customers

## Step ONE

### Level 1 - City Host or Consultant

Join & learn, earn & step up

**Investment:** \$1,500 USD

**Potential Revenue:**  
\$10k-\$120k+ per year

**Community Growth:**  
100 - 2,000 followers

**Number of clients:**  
10 - 100 customers

## Step TWO

### Level 2 - City Leader or Trainer

Start leveraging your niche or grow your community

**Investment:** \$15, 000 USD

**Potential Revenue:**  
\$120K-\$300+ per year

**Community Growth:**  
2,000 - 5,000 followers

**Number of clients:**  
100 - 1,000 customers

## Step THREE

### Level 3 - Country Leader or Content Partner

Leverage your niche & communities by co-creating with us!

**Investment:** \$32, 000 USD

**Potential Revenue:**  
\$300k-\$1.5M+ per year

**Community Growth:**  
5,000 - 10,000 plus

**Number of clients:**  
1,000 plus customers

## Step FOUR

### Level 4 - Genius Partner

Collaborate, add your products & services into our products & increase your network through specific marketing & affiliate initiatives

**Investment:** Upon Request

**Potential Revenue:**  
\$2M+ per year

**Community Growth:**  
10,000 plus

**Number of clients:**  
10,000 plus customers

Join the global challenge to play the World Game, where your actions contribute to positive change. Together, we aim to make 100 million impacts and generate \$100 million in revenue, all while uniting in a common goal.

02

## 100 million impacts

Your participation in the World Game contributes to our collective mission to create 100 million positive impacts worldwide. Each impact is a step towards a more unified and prosperous future. We are aiming to feed 100 million people with Tony Robbins!

03

## \$100 million dollars of income

As we work together to uplift humanity, we also strive to generate \$100 million in revenue. This financial milestone empowers us to make an even greater difference and support meaningful causes.

04

## VIP Pre-launch Invitation

Join us on the VIP track as either partner or student and be a part of the top table throughout the next two years. Our current VIP members who book a call and book your place pre-launch will be receiving an additional one year participation as a bonus.

# How can you share in the \$10 million?

**ONE FOCUS:** Direct ALL our efforts towards GeniusU into ONE message and focus that can scale to \$100M impacts and 10M students in 2024.

01

## Purchasing wholesale & reselling

When you purchase in wholesale or resell any of GeniusU programs you increase your chances of winning straightaway, with wholesale rates giving up to 70% discount on some products resulting in higher revenues for you.

02

## Tracking how much you earn monthly

When you log into GeniusU to play The World Game you will see the dashboard on your monthly earnings/income and impacts, with details of how all the players are doing each month. You can also log into your own dashboard on GeniusU to track your own progress too and the clients you have referred.

03

## Get rewarded

There are over \$100,000 of awards and prizes, for the players who create the most impact and grow their business the most, during the next 3 months.

[Register today and play The World Game now!](#)

# WORLD GAME

We are focusing development on the GeniusU Platform to give everyone the tools they need to make the challenge fun, engaging and easy to track:

- Easy-to-see scores and rankings, individually, by city / circle & UN Global Goals
- Tracking of profit (earnings & Genius Dollars) and purpose (Giving Impacts)
- Clear next steps from Genie for each person who is a part of the challenge
- Clear guide from member to leader to mentor to events, training & services
- Ongoing flow of warm prospects for each level of partner

# Stable Level 3 and beyond!

## **Tamami: A Beacon of Entrepreneurial Excellence in Japan**

As a Lord Profile, Tamami has been an invaluable partner with Genius Group since 2008. She has fostered an impressive community of over 30,000 Japanese entrepreneurs. When crisis struck, and events halted, Tamami ingeniously pivoted by digitalizing the content GeniusU provided to entrepreneurs, thereby swiftly emerging as a pivotal figure for entrepreneurial support in Japan.

### **Actions:**

- Established an expansive Japanese entrepreneurial community
- Organized a highly successful online event in July 2021, generating \$250k with 750 attendees in just 4 hours
- Currently collaborating with the Japanese Defence Force and organizing enriching retreats in Greece

🌟 **Key Accomplishment:** Tamami has not only transcended challenges but also positioned herself as an instrumental figure in empowering and transforming the entrepreneurial landscape in Japan through innovative strategies and collaborations.

# Joining as a Level 4 partner!

# Other Successes our partners have had!

**Jagan Krish**

Founder of LMF

Jagan has been running his lead magnet formula and has had 44 people paid 999 INR for his 5-Day-Challenge. 41% were present on final day and 27% paid for the PREMIUM SIX WEEK INTENSIVE Programme.

The quality of people who joined his programme increased by 50% and the caliber of client was more yellow/green than orange . He has received at least 10 positive recommendations through his different programmes. 70% of clients who completed LMF Premium upgraded to LMF Elite for 100 days.

He has followed all the processes and principles in the Genius Accelerator Programme and is on track for his goals in 2023 and is expanding into the US market.

<https://jagankrish.com/>

# Other Successes our partners have had!

## Ken Kilday

Former Executive Leader &  
Current Executive Coach  
and Business Strategist

He uses the diversity and depth of his leadership experience to help CEOs, Business Owners, and Executives become better leaders, make better decisions, and deliver better personal and professional results.

Whether by implementing the Making the Cut™ business operating system, individual coaching, or team effectiveness work – the unifying principle is awareness. The highest-performing leaders use keen awareness to do three things consistently:

They step away from their day-to-day responsibilities to think about and focus \*on\* the business rather than \*in\* it.

They connect with other leaders in similar roles and share learnings to help each other make important, more informed decisions.

They constantly seek outside perspectives for new and innovative ideas to bring into their businesses.

He has awesome TD integrations on his website, up to date videos for each profile and is really passionate about sharing Talent Dynamics.

<https://wealthdynamics.geniusu.com/leaderscut/>

# Other Successes our partners have had!

**Bea Benkova**

CEO & Founder of GIFEW

Bea is a Global Transformation Leader who grew up in communist Czechoslovakia believing she could be anything she wanted to be. She thought she was destined to be the governor of a central bank when in 2006 she woke up to a health crisis in her family and the realisation that the ladder of her life was leaning against the wrong wall. Burnt out and stressed out, she got out of corporate life and embarked on a mission of healing, for herself and the women in her life.

Her transformation coaching practice has been growing prominence and over 14 years Bea personally worked with women CEOs, public figures, politicians, scientists, authors, artists, educators, and professionals, and become established as the go-to transformational coach for women with influential and entrepreneurial women across the UK, Europe, Los Angeles and New York. Bea founded GIFEW in 2012 to fulfil on her mission for all women to fulfil on their missions and transform humanity through the aligned power of evolutionary women.

# Other Successes our partners have had!

**Simon Zutshi**  
Founder & CEO of pin

Simon Zutshi, experienced investor, successful entrepreneur and best-selling author. He is also widely recognised as one of the top wealth creation strategists in the UK. Investing since 1995, he became financially independent by the age of 32.

## Simon Zutshi & property investors network

Passionate about sharing his experience, Simon founded the property investor's network in 2003. This has grown to become the largest property networking organisation in the UK. Holding monthly meetings in 50 cities, designed specifically to provide a supportive, educational and inspirational environment - for people like you to network with and learn from other successful investors.

<https://propertyinvestorsnetwork.co.uk/>

# Other Successes our partners have had!

Our New Zealand regional partners, Kyron and Beryl of FreedomCo, have just acquired education company Wealth Mentor.

Wealth Mentor has long been a pinnacle in the New Zealand property investment education sector having transformed the lives of thousands of students.

Wealth Mentor's enterprise promise is "Making Wealth Accessible to All" with a specific mission of bringing financial prosperity to the South Pacific. To achieve this vision Wealth Mentor will be adopting GeniusU partner products in order to implement a full financial education curriculum, supporting students from kindergarten to retirement and beyond.

[www.freedomco.nz](http://www.freedomco.nz) and [www.wealthmentor.co.nz](http://www.wealthmentor.co.nz)

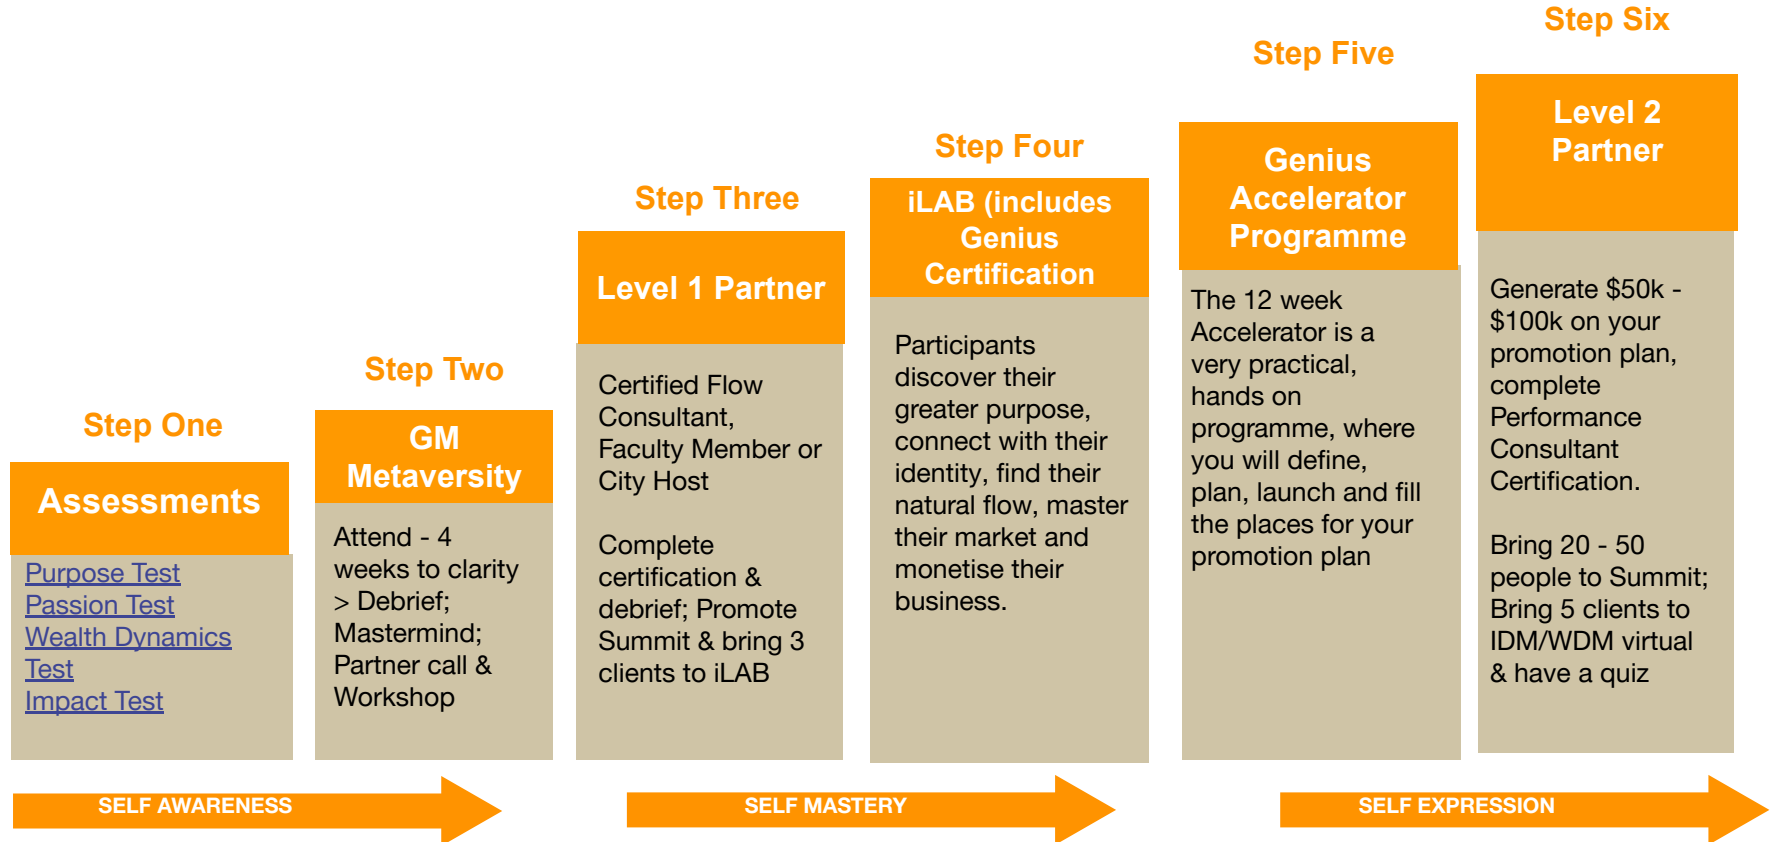

Kyron followed the full light house principle on this company. He started as a customer of the business in 2012, then became a yellow level mentor within the business in 2014 and in 2020 when the pandemic hit, he took charge and lead a green level team for marketing. And now purchased the company at Blue Level in 2023.
