Predictive METAVERSE

A leader in
metalearning in
the metaverse as
it evolves and
replaces apps
and the internet

What we are launching in 2023: The Education Revolution

Global Curriculum: In 2023, we are launching a global curriculum based on 3 campuses: Our Entrepreneur Campus, Investor Campus and University Campus, welcoming an additional 2 million students.

Profitable Partners: We are hyper-focusing on supporting 60 superstar faculty members, content partners and country leaders, and 120 faculty partners and city leaders, with a goal of generating \$30 million in earnings across our 3 regions.

Impact Investors: We are on a mission, but we are under attack. We have hired lawyers to investigate market manipulation of our shares and are now ready to go on the offensive to drive our share price up, with a plan which includes share options for all our partners that could result in a 15x growth simply by returning our shares to the IPO price.

Our Genius Formula Growth Model for our Partners to be Profitable

From January 2023 we are launching monthly mentoring for our Entrepreneur Revolution Partners led by Roger, to implement the three stages of the Genius Formula into each partners' business as we integrate each with GeniusU:

Stage One

PLAN

Plan your school
in one week:

Why: Mission
What: Products
Who: Team
When: Schedule
How: Budget

Stage Two

BUILD

Build your school
in three weeks:

Why: Offer
What: Pathway
Who: UX / UI
When: Roadmap
How: Sprints

Stage Three

GROW

Grow your school
over three months:

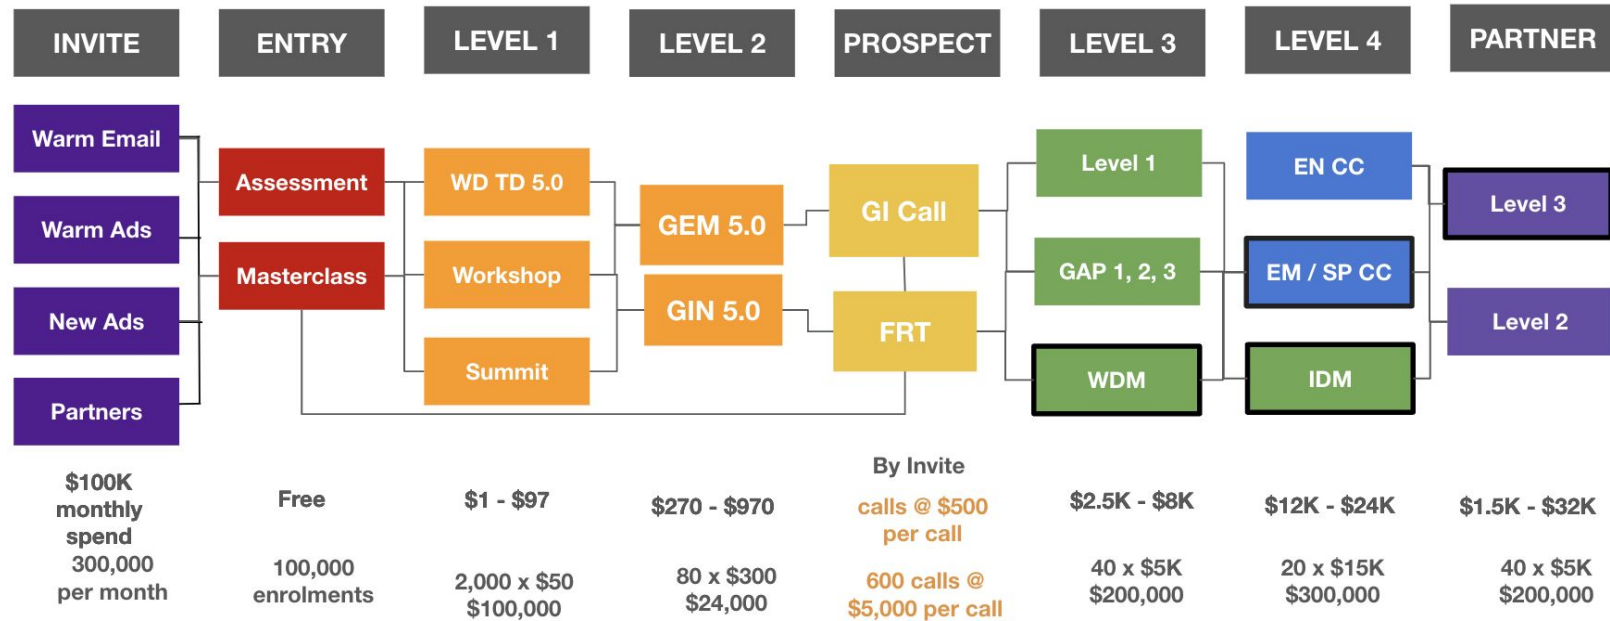

Why: Review
What: Actions
Who: Ownership
When: Milestones
How: Dashboard

Genius Formula

1	Create 5Ps: Customer problem, promise, product, proof
2	Develop customer promo plan and step-by-step pathway
3	Set calendar and weekly, monthly, quarterly, annual targets
4	Assemble team to deliver on promo plan
5	Set up company, profile, product, course and payment pages on GeniusU
6	Set up journey, ad, email and sms pathways from follower to customer
7	Set up data dashboard on GeniusU
8	Launch customer promo plan and first six months test and measure
9	Set up partner promo plan and step-by-step pathway
10	Repeat steps above with certification and commission pages on GeniusU

Our Genius Formula Growth Model

We have spent 2022 testing and developing our Genius Formula bringing down our cost per new student to under \$1 and our revenue per student to over \$10 with a 10x ROAS based on our freemium, personalized pathway in our two campuses. We are now ready to bring partners on board to share in the revenue using this Growth Model, the GU platform and the training we will provide:

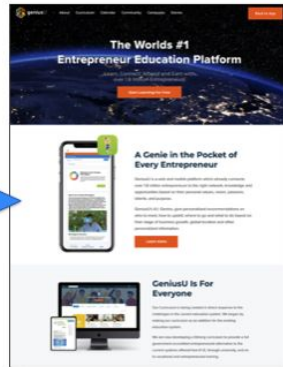

Our Genius Formula Growth Model

In 2023 we are developing a **super-compelling pathway** using the Genius Formula, incorporating all our partners' courses and schools into our GEM credit system and linking our pathway through to our Genius University, giving a pathway all the way through to a BSc and MBA in Entrepreneurship or Investing, with all our Education Revolution Partners courses earning GEMs.

Build your GeniusU profile

Our Quarterly Growth Plan

We have divided our 2023 calendar into four quarters, each beginning with a Partner Conference and ending with a Global Summit. The training in the Genius Formula and sharing of revenue begins in January 2023, coinciding with our global media campaign attracting partners and investors, which is why now is the time to join.

What does that mean for our Partners?

By applying the Genius Formula, Partners can earn additional revenue while learning & growing their businesses!

The earnings are automatically calculated on GeniusU for marketing, sales, delivery and content. The Genius Partnership model allows each Content Partner and Country Leader to earn by working with the top regions and courses that fit them best, delivering world-class, accredited courses to students.

1	2	3	4
MARKETING	SALES	DELIVERY	CONTENT
20%	10%	30%	10%
Up to 20% of revenue goes to marketing, with Country Leaders receiving an override on the revenue from students that they or their City Leaders attract.	Up to 10% of revenue goes to sales & enrolment, with this being paid to the teams that convert free students to paid students through GeniusU.	Up to 30% of revenue goes to the faculty that deliver the courses, with Partners receiving an override for the courses their teams deliver.	Up to 10% of revenue goes to the IP owner of the courses, with Content Partners earning on their courses however and wherever they are delivered

The \$1 Million Genius Model

By joining as an Education Revolution Partner

we will work with you to build your Genius Pathway on GeniusU, with metrics to build a model with \$1m in revenues.

We have built effective \$1M Genius Pathways with metrics that look like this:

Education Revolution Partner \$1M Model

The \$1 Million Genius Model

By joining as an **Education Revolution Partner**, we will work with you to build your Genius Pathway on GeniusU, with metrics to build a model with \$1m in revenues.

This model works by building a predictable revenue stream using the Genius Formula. While the results vary based on your brand and product, the target metrics over the year look like this:

1. **Acquire leads for \$2 per lead:** \$200,000 in ad spend or commissions to Country Leaders and City Leaders results in 200,000 leads & \$1,000,000 in revenue (That's 20% marketing cost as a percent of revenue: Or a 400% R.O.I.)
2. **Deliver free value to your community:** All 200,000 leads take free assessments (Like the Entrepreneur or Investor Genius Test) through your links and many attend free masterclasses, giving them value and giving you valuable data
3. **A target 2% will upgrade to Level 1 products:** That means 2,000 will join your workshops or summit, and your 12 month membership. At an average of \$50, this means you make back \$100,000 on the front end. You can also direct them to our workshops and summits on GeniusU until you're ready with your own products.
4. **From this group 600 will qualify for upgrade calls:** In our experience, 600 qualified calls leads to 200 upgrading with an averaging \$4,500 per upgrade and \$1,500 per call. You can use our Genius Igniter Team to make the calls.
5. **This will result in \$500,000 in upgrades:** An average of 40 upgrades will be for certifications or courses at \$5,000 on average, and 20 upgrades will be for degrees or masterminds at \$15,000 on average.
6. The final step is providing partner certifications: From the same upgrade calls, an average of 80 partners will join you when given the right levels of opportunity at an average of \$5K, generating \$400K in additional revenue.

Hundredth Monkey Effect and Information Cascade

The hundredth monkey effect is a hypothetical phenomenon in which a new behavior or idea is said to spread rapidly by unexplained means from one group to all related groups once a critical number of members of one group exhibit the new behavior or acknowledge the new idea. This concept is closely related to the information cascade model we learnt in class and demonstrates how it works in the animal world.

The story of the hundredth monkey effect was published in Lyall Watson's foreword to Lawrence Blair's Rhythms of Vision in 1975. Some scientists were conducting a study of macaque monkeys on the Japanese island of Kōjima in 1952. These scientists observed that some of these monkeys learned to wash sweet potatoes in the water, and once a critical number of these monkeys was reached, i.e., the hundredth monkey, this previously learned practice instantly spread across the water to other troupes of monkeys on nearby islands without any contact between the troupes. This phenomenon correlates to the information cascade model in that it shows how ideas can spread quickly once they hit a certain level of acceptance. The certain level of acceptance matches with the tipping point in advertising we discussed in class.

The researchers also observed the following pattern which suggests the information cascade process based on network structure:

1. The young monkeys first teach their contemporaries and immediate family, who all benefit from the new behavior and teach it to their contemporaries;
2. If the parents or their contemporaries (or their parents) are too old, they do not adopt the behavior;
3. Once the initial group have children, the dynamic changes from teaching previous and current generations, to the next generation learning by observation.

Genius Group's Curriculum 2023

OUR C.L.E.A.R PHILOSOPHY

Our students earn Genius Entrepreneur Merits(GEMs) for each step they take to Connect, Learn, Earn, Act and Review, gamifying the experience.

An important additional element in our learning methodology is our "CLEAR Philosophy". This is in reference to how we have designed GeniusU and Genie to focus on five daily actions that we recommend students to take. These five actions and sections within GeniusU are Connect, Learn, Earn, Act and Review, and they form the acronym C.L.E.A.R.

Students earn GEMs for taking actions in each of these five areas, and our partners and faculty use these five areas to design their own circles, courses and products on GeniusU, combining an entrepreneurial methodology of how students are learning with the entrepreneurial content of what they will learn.

The reason that we believe that these five areas are so important in mastering in self-directed learning is because it provides the necessary scaffolding for relevant and contextual learning that is often missing in traditional education:

"Education is a social process; education is growth; education is not preparation for life but is life itself."

- John Dewey

Genius Group Ltd.

OUR GENIUS CURRICULUM

We believe that the problem that we are solving is that individuals from students to employees to freelancers to startup founders want to learn how to be entrepreneurial and "create a job" instead of needing to "get a job." We believe that the current education system and online courses do not provide any recognized curriculum that can be relied upon.

Our curriculum is being created in direct response to the challenges in the current education system. We began by making our curriculum an addition to the existing education system.

We are now developing a life-long curriculum that serves as a supplement to the existing education system.

In time we aspire to create a fully accredited replacement to the traditional U.S. school and university pathway, with an entrepreneurial alternative to the current systems offered from primary school and secondary school through to university, ongoing vocational training and entrepreneurial training.

Philanthropy: Love of what it is to be human

Philosophy: Love of the world around us

ENTREPRENEURS
INSTITUTE

Wealth Dynamics 5.0

Creator: Elon Musk, Tesla & SpaceX

Elon Musk has become the richest man in the world, with the innovations he has created fueling the growth of Tesla, SpaceX and multiple other companies.

Trader: Cathie Wood, Ark Invest

Cathie has turned her interest in exponential tech and companies into one of the fastest growing investment funds, Ark Invest, with \$42 billion under management.

Star: Lori Greiner, Queen of QVC

Lori Greiner has used her star power to become known as “Queen of QVC” and as a Shark on Shark Tank, her companies have over \$1 billion in revenue.

Accumulator, Kevin O'Leary, O'Leary Funds

“Mr Wonderful” is polar opposite shark to Lori Greiner on Shark Tank, with all his investments generating a yield, with his focus on building capital assets.

Supporter: Mukesh Ambani, Reliance Industries

Mukesh Ambani has led his 230,000 employee family company into multiple industries and has become the richest man in India, with a net worth of \$93 billion.

Lord, Yang Huiyan, Country Garden Holdings

Yang Huiyan is owner of Country Garden and the richest woman in China and Asia. She is one of many women entrepreneurs making a fortune in China property.

Deal Maker: Susan Wojcicki, Youtube

After renting out her family garage to the Google founders, Susan has grown Youtube to \$30 billion revenue through deals with creators and advertisers.

Mechanic: Vitalik Buterin, Ethereum

Vitalik Buterin is the 27 year old crypto-billionaire developer behind Ethereum, and has built his growing fortune as the brains behind the Ethereum network.

Who is involved: Our Superstar Faculty

Who are our Superstar Faculty?

**ROGER JAMES
HAMILTON**

**MARCUS DE
MARIA**

**PETER
DIAMANDIS**

**SALIM
ISMAIL**

**SIMON
ZUTSHI**

We are selecting 10 superstar faculty members with strong social media presence and world class content to join GeniusU as both partners and investors.

The benefit to our superstars is to see their content built into US accredited degree and MBA programs via GeniusU and to see their courses delivered globally via our faculty, country and city leaders.

The benefit to our students is to be able to learn from their top mentors, whether New York Times Bestselling Authors, Youtubers or Influencers, and to receive certifications for their efforts that can lead to BSc and MBA degrees.

The benefit to our investors is to know that the world's best thought leaders are all investors in Genius Group, the only public listed company seeking to revolutionise education.

The \$1 Million Genius Model: Join as a Content Partner

When you join as a Content Partner, you take one of the limited curriculum seats with a content position in the region in 2023 and beyond. You can then earn in the following ways:

- **Generate revenue by building your products:** Based on the metrics, you can grow a profitable product line integrated into the GeniusU curriculum with the Genius Formula and our global network. Follow the training and mentoring we provide and use the tools to build your pathway.
- **Increase revenue with your own products:** You can also increase revenue by creating local versions of products in partnership with our Country Partners, City Leaders and having your brand and courses featured in our campuses and summits. Plus your branding and recognition as a Content Partner will support the growth of your current business.
- **Increase revenue with your own team:** As a Content Partner you can attract Faculty Leaders who will also deliver your training and courses. You can also earn from the certifications they take and a 5% override on their earnings.

Niches available for Content Partners

Talent Dynamics for Agile Leadership

Talent Dynamics for Remote Sales

Wealth Dynamics for Digital Marketing

Talent Dynamics for Transportation & logistics

Talent Dynamics for Manufacturing

Talent Dynamics for mining

Talent Dynamics for Professional services

Talent Dynamics for construction

Wealth Dynamics for Structured investing

Who is involved: Our Country Leaders

The \$1 Million Genius Model: Join as a Country Leader

When you join as a Country Leader, you take one of the limited locations with a leadership position in the region in 2023 and beyond. You can then earn in the following ways:

- **Generate revenue by building your region:** Based on the metrics, you can grow a profitable community with 20% earnings from marketing fees on all Content Partners you choose to partner with. That includes all GeniusU purchases your community makes throughout the year.
- **Increase revenue with your own products:** You can also increase revenue by creating local versions of products in partnership with Content Partners (adding 10% earnings) and building your own Genius Igniter team for upgrade calls (adding 10% earnings). Plus your branding and recognition as a Country Leader will support the growth of your current business.
- **Increase revenue with your own team:** As a Country Leader you can recruit City Leaders and earn 5% override on their marketing fees. You can also recruit local Faculty Leaders with local certifications, earning both from the certifications and 5% override on their earnings.
